

Paul Adams

AFFILIATE SCIENTIST

Paul is a cartographer (Diploma in Cartography, Oxford College of Technology, 1968) and GIS specialist with over 40 years experience in oil exploration and production especially in Australia, Papua New Guinea, and New Zealand.

Today Paul's specialties are in the provision of maps, figures, and data to exploration companies and individuals.

Paul has recently been associated with EGI providing GIS and liaison assistance with Government and clients in relation to the Sheared Margins of Western Australia Project. He will be commencing further projects in the Tasman Sea Margins and the Permian Basins of Gondwanaland.

Paul is a member Petroleum Exploration Society of Australia (PESA), Australian Society of Exploration Geophysicists (ASEG) and an associate of the American Society of Petroleum Geologists (AAPG).
