- Business Development Analysis

Ken Shaw

AFFILIATE SCIENTIST & CANADA OFFICE

Professional History & Experience

Going directly to industry after graduation from the University of British Columbia, Ken's first 13 years of experience centered in exploration geophysics and related business operations activities in western and frontier regions of Canada.

Following assignments as District and Chief Geophysicist as well as Exploration Manager with Unocal Canada, he was transferred to Unocal Corporation as Vice President/General Manager, Exploration Research at the Brea Research Center, Brea California. This move resulted in a broad exposure to exploration technology applications worldwide prior to retirement in 1996.

Since joining EGI in 1997, his activities as Manager of EGI's Canadian office have included participation in technical projects in the Caspian Region, Brazil, and all frontier regions of Canada plus Alaska, as well as Corporate Associate technical support and business development issues within Canada.

He is a member of the Society of Exploration Geophysicists, American Association of Petroleum Geologists, Association of Professional Engineers, Geologists and Geophysicists of Alberta (PGeoph), Canadian Well Logging Society, Canadian Society of Petroleum Geologists, and Canadian Society of Exploration Geophysicists.

Regional & Basin Experience

- Arctic
- East / West Coast Offshore, Canada
- Western Canada Sedimentary Basin, Brazil
- Caspian Region, Indonesia
